OVERVIEW

Who participates in the study?

Institutional Investor is the industry's most trusted source for research and rankings among top analysts and portfolio managers. For the 2018 ranking, we collected the opinions of 328 portfolio managers and buy-side analysts and 189 sell-side analysts.

When is the polling conducted?

Polling is conducted annually from February to March.

How are the results tabulated?

Voters rank the top-four companies that they believe demonstrate excellence in each of seven IR characteristics or performance attributes. Their votes are then weighted by the rank they have assigned each company and aggregated to produce buy-side, sell-side and combined buy- and sell-side rankings for each sector.

How are the results disseminated?

The top-three places in each of our IR rankings are announced in July on our website, which enjoys a global audience of more than 115,000 senior-level executives. The rankings presented include Best IR Program, as well as Best CEO, CFO, IR Professional, Corporate Governance, ESG/SRI Metrics and Analyst Days across 12 sectors.

Best Investor Relations attributes

Buy- and sell-side voters separately evaluate the following attributes of IR programs:

- Senior executives are accessible
- The IR team is well informed and empowered to speak authoritatively on the company's behalf
- The company provides a timely and appropriate level of financial disclosure
- Quality of meetings through road shows/reversed road shows/conferences
- The company responds quickly and thoroughly to requests
- Hosting the most constructive conference calls
- Quality of corporate documents and investor kit materials
- The company is committed to corporate governance
- The company delivers insight and useful reports on ESG/SRI metrics
- The company's website provides thorough and easy-to-access investor information
